The tasty sounds of Sean Palm and Joel Mull burned up Railyard's 20th with support coming from such heavy hitters as Sasha, Carl Cox, Laurent Garnier, Konrad Black, Ben Watt and Ewan Pearson to name a few. To follow up, remix duties get handed down to six of Railyard's most deserving North American family members for the Blackjack Remix Series.

DROID BEHAVIOR has been a relentless force of Los Angeles's techno underground since nobody gave a shit. These true to form warehouse renegades have been trailblazing the global techno frontlines with appearances upcoming on such labels as Kiddaz.fm as well as their own imprint Droid Recordings. Kickin off the EP comes the jackin tech-house fusion of Droid studio junkies DRUMCELL & AUDIO INJECTION. Backing them up with a smooth slice of Detroit styled house are fellow Droid ringmasters ACID CIRCUS. Combined this urban massive continues to infect global dancefloors so take notice.

Next taste of spicy data comes from LA's tireless robot mafia ANDROID CARTEL. These up & coming techno machines have recently signed to Steve Lawler's Viva roster proving yet again that androids not only dream of electric sheep, they eat them for breakfast with fried Duracell batteries, copper side up.

Still charting maps into the outer reaches of the solar system, master sound design JUSTIN SCOTT DIXON returns with his galactic VOYAGER project. Fans of this sonic satellite patiently scan the stars listening for a blip on the radar that has finally come. For this round Voyager fuses skilled sound design with abstract imagery to form a precise composition that overloads both body and mind.

Taking the energy down a notch is Railyard's in-house gear junkie INFLUX. Mr. James Bernard's deep, dubby, tenderized cut delicately balances the EP in true Basic Channel fashion. Opening Dj's and lounge lizards are sure to appreciate the skills of this seasoned analog programmer as he turns out the laid back vibes. ☺

Following the success of the original, Railyard's co-founder and Spice Market co-creator SEAN PALM closes out the Blackjack series in proper form. His uplifting warmth will inspire late morning rollers to hug their sleepless neighbors like an ecstasy revival. With his first upcoming full-length album due out in July, Sean Palm's hypnotic trademark continues to magnetize both new and old eardrums alike.
